### 2023 Fund Drive

#### To Our Friends and Neighbors,

To begin this letter without expressing our thanks for you and your support, would be unconscionable. You have been most benevolent.

Being a Volunteer Company, we rely on various fundraising events to meet and maintain our financial goals. With limitations on how we can raise funds, the Annual Fund Drive is one of the only venues available for us.

Your tax-deductible donation permits us to maintain operational costs and make repairs to the Station as well as do minor repairs to our equipment. Last year your support allowed us to make substantial repairs to the exterior of our Station. As you can see from the attached photos, much has been accomplished and more work is underway.

This year, with your help, work will begin on remodeling parts of the second floor of the Station. Plans include renovations of bath and shower facilities, repairs to the ceiling of the bunkroom bath, and expanding our current storage area and floor replacement of our meeting room.

Thank you for taking time to read this request. This department has proudly been part of the community for 87 years, with your continued support, we will be around a while longer. Feel free to stop by and visit, get information on detectors, have your blood pressure checked, or just take a look at the folks who serve you and your family, 24/7 and 365 days a year.
